Committees viii

Conference program ix

Investigation of dynamic water penetration tests for curtain walling
R.S. Matthews, M.R.C. Bury and D. Redfearn 1
Flutter derivatives identification through full bridge aeroelastic model transfer function analysis
A. Zasso, A. Cigada and S. Negri 17
Flutter derivatives: Advantages of a new representation convention
A. Zasso 35
Assessment of the adequacy of various wind tunnel techniques to obtain aerodynamic data for ground vehicles in cross winds
C.J. Baker and N.D. Humphreys 49
Coupled aeroelastic and aerodynamic response analysis of long-span bridges
A. Jain, N.P. Jones and R.H. Scanlan 69
Identification of lateral flutter derivatives of bridge decks
L. Singh, N.P. Jones, R.H. Scanlan and O. Lorendeaux 81
The prototype testing of Kessock Bridge: response to vortex shedding
J.S. Owen, A.M. Vann, J.P. Davies and A. Blakeborough 91
The folly of using extreme-value methods in full-scale experiments
R.P. Hoxey, P.J. Richards, G.M. Richardson, A.P. Robertson and J.L. Short 109
Full-scale testing to determine the wind loads on free-standing walls
A.P. Robertson, R.P. Hoxey, J.L. Short, W.A. Ferguson and S. Osmond 123
The side load distribution on a Rover 800 saloon car under crosswind conditions
J.P. Howell 139
Full-scale measurements of wind-induced response of an 84 m high concrete control tower
R.O. Denoon and K.C.S. Kwok 155
Influence of wind direction on natural ventilation of apartment buildings
R. Jóźwiak, J. Kacprzyk and J.A. Żurański 167
Surface pressure spectra on a model of the Silsoe structures building and comparison with full-scale
S. Dalley 177
Assessment of effluent concentrations from wind tunnel smoke studies using visual criteria
G. Breeze 189
Experimental study of a plume in a crossflow
E. Savory, N. Toy and S. Ahmed 195
Characteristics of fluctuating suction and conical vortices on a flat roof in oblique flow
H. Kawai and G. Nishimura 211
The influence of aerodynamic derivatives on flutter
M. Matsumoto, Y. Kobayashi and H. Shirato 227
Ventilation through building walls – wind tunnel studies
P. Broas 241
Strong wind effects on railway operations – 16th October 1987
T. Johnson 251
Investigation and numerical simulation of the wind effects on thermal comfort in a house
J. Tsutsumi, T. Katayama, A. Ishii, P. He and T. Hayashi 267

Author index to volume 60 281

Elsevier Science B.V.
